

PROFILES OF SUCCESS

Glatfelter Library
Spring Grove, Pennsylvania
Library Book Storage

Problem

Glatfelter Memorial Library had decided that it was time to expand their book collection. Due to the increased volume of books, they found themselves in need of a more space efficient and durable place to store them.

Datum utilizes design programs to create 3D color renderings for customers to see exactly what their unique storage system will look like in their facility, from size and scale to color and aesthetic appeal, before the system is purchased.

Solution

The library chose Datum to help them solve their problem. The solution was 4Post™ Library Shelving. Datum's 4Post™ product line had everything the library needed. Expandable, high capacity, heavy duty shelving.

Datum's unique library shelving is designed specifically for library applications. The distinctive end panels keep books from falling behind the uprights, making them decorative, functional, and perfect for book storage on the library floor.
